

Flexibility is our strength

Development, design and production from a single source

Elastomers are our world. That's why we don't let production out of our hands. Where other rubber only act, we develop individual solutions according to our customers' requirements.

With over 30 years of experience, we produce on over 1,300 m². Our experts work in a high-performance machine park:

From the development of components, the design and construction of tools, to the manufacture of prototypes, to the production of small and large quantities - everything from a single source.

Inflatable seals

Food and beverage industry, pharmaceuticals, packaging

Expansion joints, sleeves, bellows

Weighing and dosing technology, plant engineering, maintenance

Profiles, note profiles, weir flap seals

Hydraulic steelwork, civil engineering

Rubber and silicone sheets / blanks

Maintenance, energy supply, biotechnology

Moulded articles / large moulded articles

Pharmaceuticals, medicine, transport, automotive, mineral oil industry

Buffer

Construction machinery, plant and mechanical engineering

Funnels, hose lines

Chemistry, filling, weighing and dosing technology

Mixing bearing
 20 tons of raw rubber,
 NR, SBR, CR, Viton, NBR,
 HNBR, Silikon, EPDM

Raw rubber in stock

Moulded article
 7 Moulding presses
 1 large press 2,000 x 1,000 mm
 2 rolling mills

Silicone
 Hot vulcanising press,
 cold bonding

Mould / tool making
 Lathes
 Punching
 Grinding Machines

1.300 m²
 Production area

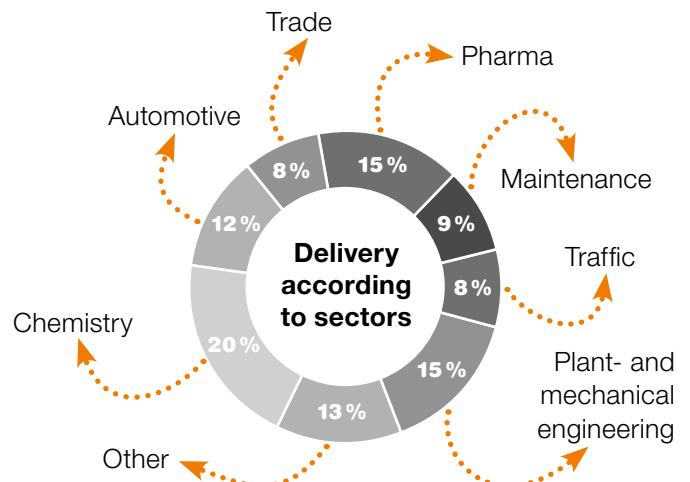

Hand-held/free-standing confection
 autoclaves up to 4,000 mm length
 and 1,800 mm diameter
 1,000 Pipe and auxiliary tools

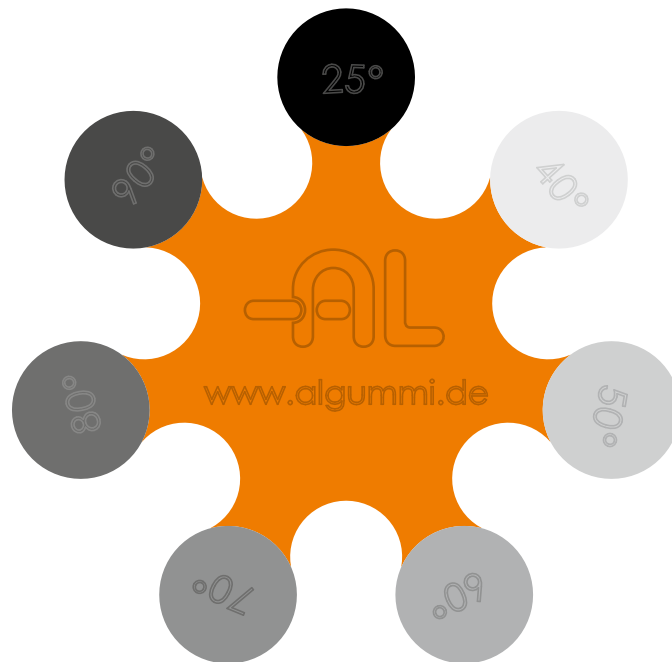

Experience since
1986

6.000
 inflatable Seals annually

3 million €
 Annual turnover

Development partner for individual solutions

Our drive is to find individual solutions together with you.

Customers from a wide range of industries have trusted our know-how in hard rubber, soft rubber and silicone for years in many cases.

They appreciate our flexibility, trust the quality of our products and our expertise.

We would also be happy to advise you - always without obligation and look forward to your enquiry on +49 2133 6968 or via email to post@algummi.de.

„You love what you work for,
and you make an effort for what you love.“
Erich Fromm
